# Introduction

---

Medontic is a Medical & Dental Equipment Supplier based in Northampton, England. Using over 20 years experience in medical equipment management we specialise in offering Clinicians and Dentists, the latest in equipment technology.

Our selected products on sale have fulfilled the selection criteria of providing the user with excellent performance at very competitive prices and good value for money. We are constantly improving our products to cater for our clients' needs. In support of the product we offer advice on selection, procurement, training, repair and maintenance.

We work with dentists who have a problem choosing the right equipment for their surgeries. What we do is offer dentists a One-Stop-Shop utilising our experiences in working with clinicians who have 'been there and done it'. What we guarantee is a specialist solution to your equipping challenge. Which means you can rest assured that you will have the best equipment and cabinetry installed and fitted within budget and time scale. Optimising your working space inside your surgery making you work in comfort with faster work flow and keeping you excited to work in your surgery every day of the week!

	<b>Ritter Additional Dental Stool</b> Standard Ritter Operating Stools Order No: Dental Stool
	<b>Colour Swatch</b> Ritter Elite Colours, Let us know which ones you require.

## Dental Imaging

Quality dental equipment is the need for any surgery, especially when it involves dental imaging. Today's technology has become so advanced that to keep up with the market requirements, we need advancement in equipment. Medontic limited appreciates the current technology market, therefore we have a wide range of dental imaging equipment which meets the growing needs of today's market.

Existing X-ray installations can usually remain in operation. Can be set up flexibly on tables or on the wall. Can be set up in a central position – no darkroom. Can be operated as a stand-alone (workstation with PC, monitor, VistaScan).

## Dental Imaging

	<b>Satelec X mind DC X-Ray</b> Digital Wall Mounted X-Ray. Satelec X-Ray X-Mind DC is your best solution for digital interoral imaging. <b>Order No: DC X-Ray</b>

	<p><b>RITTER 3D Dental Imaging Software</b></p> <p>Ritter Imaging sports two imaging software packages, namely; LYNX and LYNX 3D.</p> <p><b>Order No: LYNX 3D</b></p>

## Dental Scalers

Satelec® presents its latest piezoelectric ultrasonic generator: Suprasson® P5 Newtron.

Combining the benefits of powerful Newtron® technology in the state-of-the-art control module and the ergonomics of the patented Satelec Color Coding System, the P5 Newtron provides the best performance and the widest choice of ultrasonic instruments available in the marketplace today.

The Newtron technology enables real-time adjustment of the tips' single plane oscillation amplitude (Cruise Control™) which means a smooth, constant and powerful vibration during treatment.

## Dental Scalers

	<b>Satelec P5 Newtron</b> Satelec® presents its latest piezoelectric ultrasonic generator: Suprasson® P5 Newtron. <b>Order No:</b> P5
	<b>P5 Newtron XS</b> High performance ultrasonic device with self-contained irrigation <b>Order No:</b> P5 XS
	<b>P-MAX XS</b> SATELEC presents the first ever autoclavable LED light handpiece with the Air Active function. Extremely powerful LED light(65 000 LUX). <b>Order No:</b> P-MAX XS

## Suction Motors and Compressors

**B**ambi air compressors are high performance and precision made systems, designed for medical, dental, laboratory and OEM applications.

Apollo painting systems are sold in over 50 countries - HVLP (High Volume Low Pressure) with powerful integral turbines that offer robust portability - no compressor required and Portaspray 'Multifleck' Sprayers. Our range covers DIY, professional and contractor specifications.

METASYS was founded in 1988 and within a few years it became the world's leading producer of amalgam separators. The most famous manufacturers of dental units have fitted their units with METASYS amalgam separators ex works. The vision of METASYS however, aimed at a comprehensive solution of the amalgam problem. This is why Dental ECO Service, its subsidiary company, offers a comprehensive collection and recycling service for all types of amalgam containing dental waste in Europe and overseas since the early 1990s

## Suction Motors

	<p><b>Metasys Excom Z-ECO</b> 1 unit, without amalgam separator, 0.55 kW, 180 mbar Order No: Z-ECO</p>
	<p><b>Metasys Excom ZA1</b> 1 unit, with amalgam separator, 0.55 kW, 180 mbar Order No: ZA1</p>
	<p><b>Metasys Excom ZA2 – ECO II</b> 2 units, with amalgam separator ECO II, 1.4 kW, 180 mbar Order No: ZA2</p>
	<p><b>Metasys Excom ZA5 – ECO II</b> 3-5 units, with amalgam separator ECO II, 2.1 kW, 180 mbar Order No: ZA5 Type: Dental Suctions</p>

## Compressors

	<p><b>Metasys BORA New Light</b> 1 unit, 30 l, 1.1 kW, 66 l/min Order No: BORA</p>
	<p><b>Metasys SCIROCCO New Light</b> 2 units, 30 l, 1.5 kW, 130 l/min Order No: SCIROCCO</p>
	<p><b>Metasys MAESTRALE New Light</b> 3-4 units, 50 l, 1.94 kW, 230 l/min Order No: MAESTRALE</p>
	<p><b>Metasys Gran MAESTRALE</b> 5-6 units, 100 l, 3.8 kW, 460 l/min, 400 V, with dryer Order No: 000000</p>

## Compressors

	<p><b>BAMBI VT 75</b> 1 unit, 24 l, 0.55 kW, 120 l/min Order No: VT 75</p>
	<p><b>BAMBI VT 150</b> 2 units, 50 l, 1.1 kW, 175 l/min Order No: 000000</p>
	<p><b>BAMBI VT 200</b> 3-4 units, 50 l, 1.5 kW, 220 l/min Order No: VT 150</p>
	<p><b>BAMBI VT 300</b> 4-5 units, 100l, 2x1.1 kW, 350 l/min, Order No: VT 300</p>
	<p><b>BAMBI VT 400</b> 5-6 units, 100l, 2x1.5 kW, 440 l/min Order No: VT 400</p>

## Teeth Whitening

Tooth whitening is being promoted everywhere...supermarkets, newspapers and magazines, pharmacies and, of course, on television and in the movies. You know this from your own experience as a dentist. And while your patients know they can't be movie stars, they do know they can have those same beautiful movie star smiles. The explosive increase in tooth whitening sales in the United States and across Europe speaks for itself. The phenomenal demand for whitening products will just keep increasing in the foreseeable future. A recent study recently revealed that 80% of consumers judge others by the appearance of their teeth whereas only 12% gauge other people by the appearance of their clothes. Your patients would love to have whiter teeth.

## Teeth Whitening

	<b>Remewhite Whitening Machine</b> The Remecure is a high speed dental curing light, for use with curing composite fillings and performing in-office whitening procedures. Order No: Remewhite
	<b>ELEXA-lite 180 Plasma</b> Multifunction design for composite curing as well as teeth whitening. 3 second cure Plasma Arc Light, Order No: 180 Plasma

	<p><b>Qelex Plasma 100</b></p> <p>Speeds the process of whitening and cures approximately four times faster than conventional light-activated bleaching.</p> <p>Order No: Plasma 100</p>

## Steralisation

**M**ILLRACK's elegant design allows combining various pieces of equipment for a perfect sterilisation procedure: from cleaning to thermo disinfection, from packaging to sterilisation up to storage, depending on the need. The system is provided with integrated electrical and water filling and drain hook-ups that allow devices to be directly connected. With MILLDROP'S osmosis system it is possible to fill distilled water into the steriliser (with automatic filling) without any operator intervention. There are also two convenient removable trays for preparing instruments and materials. A practical three-compartment (optional) drawer unit can be integrated with the Millrack sterilisation system.

## Steralisation

	<p>Millennium B+ is Mocom's revolutionary step forward in the field of type-B steam sterilizers. They represent an ideal point of reference in terms of safety, performance and flexibility.</p> <p><b>Order No: Millennium B+</b></p>
	<p>Millennium B2 is Mocom's revolutionary step forward in the field of type-B steam sterilizers. They represent an ideal point of reference in terms of safety, performance and flexibility.</p> <p><b>Order No: Millennium B2</b></p>
	<p>Millennium B is Mocom's revolutionary step forward in the field of type-B steam sterilizers. They represent an ideal point of reference in terms of safety, performance and flexibility.</p> <p><b>Order No: Millennium B</b></p>

## Handpieces, Motors, Couplings

A good set of tools are important for every trade. In dentistry dental handpieces not only should be strong and efficient, but also good quality that should last. From June 2007 to June 2008, TOSI had developed high speed air turbine handpieces, low speed handpieces and fibre optic illuminated.

Featuring a new generation cellular optics, triple water spray and ceramic ball bearings, NSK's High Speed sets a new standard for stainless steel high speed handpiece. NSK's cellular glass optics delivers 20% brighter illumination than conventional fibre optics and will not deteriorate from repeated autoclaving. Ceramic ball bearings are 25% harder than stainless steel bearings, but just half the weight. Lower friction results in quieter and heatless operation, especially at high speed, and substantially longer turbine life.

## Handpieces, Motors, Couplings

	<b>Tosi Push button torque high speed</b> Ultra Push Chuck, Single water spray Stainless or Ceramic bearings, Midwest 4 hole or Borden 2 hole <b>Order Code : Tosi Push</b>
	<b>Tosi Standard High Speed</b> Wrench Chuck, Single water spray Stainless or Ceramic bearings Midwest 4 hole or Borden 2 hole <b>Order Code : Tosi Standard</b>
	<b>Tosi Disposable Handpieces</b> This handpiece can avoid cross infection efficiently. TOSI series provides a powerful and economic function. <b>Order Code : Tosi Disposable</b>
	<b>Tosi Air Motor TX-9 M4</b> External Water Spray, 1:1 Drive Midwest 4 hole or Borden 2 hole 22,000 RPM max. <b>Order Code : TX-9 M4</b>

## Handpieces, Motors, Couplings

	<p><b>NSK High speed Ti-Max X600L</b></p> <p>Titanium is 30% lighter than stainless steel, more durable and corrosion resistant. The reduced weight and well balanced shape give an unmatched tactile sense.</p> <p>Order No: Ti-Max X600L</p>
